

# AHMED KALBOUNEH

Computer Technician

Graphic Designe

Design and production of promotional videos

I am a dedicated, hard worker skilled in problem-solving and time management. I work well with others, but I can also take initiative and get things done on my own. I catch on quickly and work hard to continuously expand my skill set.

I believe that I can be a valuable addition to your organization and your business goals, at your convenience, I am available for an interview or further discussion. I look forward to your response.
