

Ibrahim Mohammad Ghoul,

RN, MSc, PhD (Candidate)

Head Nurse, Oncology and Hematology Department
An-Najah National University Hospital (NNUH), Nablus, Palestine
+970-597-651-580
crna.ibrahim@gmail.com

Professional Summary

Experienced oncology nurse leader, researcher, and educator with strong academic and clinical expertise. Currently leading oncology and hematology nursing services at NNUH. PhD candidate in nursing science, published author in high-impact journals (BMC series), peer reviewer for Q1 and Q2 Springer Nature journals, and innovator of digital tools to improve cancer care delivery. Specialized in critical care, pain management, and chemotherapy. Global health collaborator (SIOP/St. Jude Global) and frontline responder (Palestinian Red Crescent), advancing cancer care standards and emergency medical services in conflict zones through multilingual leadership and crisis intervention.

Key Skills

- Oncology nursing, chemotherapy, and symptom management.
 - Critical care, anesthesia, and emergency response.
 - Nursing education, simulation training, and research supervision.
 - Clinical leadership, staff development, and quality monitoring.
 - Data analysis, and scientific writing.
 - Peer review, publication support, and conference presentation.
 - Digital health solutions, Google Sheets automation, and workflow design.
 - Multilingual communication: Arabic (native), English (fluent), German (basic).
-

Current Position

Head Nurse, Oncology and Hematology Department
An-Najah National University Hospital | 2023–Present

- Lead oncology nursing services, including chemotherapy, clinics, and minor procedures.
- Developed an integrated digital system for scheduling, medication tracking, patient classification, and communication across departments.

- Spearheaded initiatives to improve policies, patient flow, and international recognition.
 - Supervise care delivery, staff development, quality audits, and patient satisfaction strategies.
-

Academic & Clinical Experience

Research Supervisor, Lecturer & Clinical Instructor

An-Najah National University / 2018–Present (Part-time)

- Supervise undergraduate nursing research projects from proposal to completion.
- Teach core courses in nursing, anesthesia, critical care, and clinical decision-making.
- Lead simulation-based training in health assessment and acute care.
- Serve as an instructor and trainer for nursing and perfusion students in surgical and high-acuity care settings.

Senior Registered Nurse

An-Najah National University Hospital | 2018–2023

- Served as a senior nurse in critical care units and COVID-19 isolation wards, overseeing patient management and staff coordination.
 - Led nursing care delivery in medical wards, ensuring high standards of clinical practice and patient safety.
 - Actively contributed to the chemotherapy team and provided education on pain management strategies and protocols.
 - Participated in the Nursing Competency Committee and monitored key performance indicators (KPIs) to support quality improvement initiative.
 - Conduct and actively participate in evidence-based clinical workshops and journal clubs at NNUH (2020-now).
-

International Experience

- **Member of International Society of Pediatric Oncology (SIOP)**, contributing to global efforts in pediatric oncology education, networking, and evidence-based practice (2025).
 - Peer Reviewer with **Springer Nature in a high impact journal** (2025).
 - Participated in oncology services visit to **King Hussein Cancer Center** in Amman as part of a **St. Jude Global** collaboration to enhance cancer care practices in Palestine (2023).
 - Completed hands-on clinical training in intensive care, operating room, emergency, and geriatric nursing during an international exchange program at **St. Irmgardis Krankenhaus, Viersen, Germany** (2019). [Link](#)
-

Peer Review & Academic Service

- Active peer reviewer for high-impact nursing and healthcare journals, particularly within Springer Nature's Q1/Q2 portfolio.
 - Contributed to a growing body of research addressing critical care, oncology nursing, and healthcare delivery in conflict-affected settings.
 - Experienced in guiding research teams through proposal development, ethics approval, statistical analysis (SPSS), and manuscript preparation.
 - Engaged in conference presentations and interdisciplinary academic collaborations focused on improving nursing education, patient safety, and health system resilience under occupation.
-

Volunteer & Community Engagement

- Participated with the Palestinian Red Crescent in establishing emergency care points and providing frontline health services during military incursions and wartime conditions in Nur Shams Camp.
 - Volunteered in the COVID-19 response team at An-Najah National University Hospital, supporting critical care units, educating staff on infection control practices, and assisting in patient and family communication during peak pandemic periods.
 - Founder of Cannula Nursing Education Free Platform. [Link](#)
-
