

Curriculum Vitae (CV)
Fadi W. S. Basha, MD, MPhil.

Jenin, Palestine | Palestinian, Japanese | fwsb2@cantab.ac.uk | +972-59-239-1415 | [LinkedIn](#)

Education

- 2024-2025 **MPhil in Population Health Sciences**
Clare College, University of Cambridge, UK
- **Completed with Distinction (First Class)**
 - Actively participated in 11 modules covering **principles of public health and epidemiology**, advanced biostatistics for epidemiology using R, and social and spatial epidemiology.
 - Dissertation titled “The effect of retirement on health behaviors: analysis of a prospective cohort study in the UK”, awarded a Distinction
 - Aimed to quantify the association between retirement and health behaviours on 12,000 participants by conducting multiple linear and logistic regression analysis using R on the Fenland cohort study.
 - Supervised by Dr Vickie Braithwaite and Dr Kirsten Rennie from the MRC-Epidemiology unit.
- 2017-2023 **Doctor of Medicine (MD)**
An-Najah National University, Palestine
- **GPA 3.69/4 (Ranked amongst top 5% of my class).**
 - Graduated with Excellence from one of the top Palestinian universities.
 - Completed advanced courses in **public health and epidemiology**, preventive and community medicine and medical research.
 - Excelled on my graduation thesis looking at the relationship between infection with COVID-19 and deteriorating kidney disease
 - Published the thesis as a **first author** in the Annals of Medicine
- 2005-2017 **High School "Tawjihi" Diploma**
Latin Patriarchate Schools, Palestine
- **Grade 98.1% (Amongst the top 1% of Palestinian students)**

Relevant experience

- 2026-now **Intern**
Eastern Mediterranean Public Health Network (EMPHNET)
- **Revised and proofread** FETP case studies derived from the work of FETP residents across the region to prepare for the FETP casebook.
 - Reviewed case studies for **methodological consistencies, data accuracy, and relevance.**
 - Worked under the supervision of Dr. Amna Khairy from the Workforce Capacity Force.
- 2025-now **Lecturer and research assistant**
An-Najah National University
- **Coordinate the Medical ethics and professionalism** module for more than 300 medical students. This includes preparing and presenting sessions, leading discussions, crafting assignments and writing and correcting examinations according to the Intended Learning Outcomes (ILOs).
 - Supervise and mentor undergraduate student research groups working on research projects concerning clinical medicine and public health by providing guidance on scientific writing, advising on biostatistical methods and result presentation.

Leadership & Extracurriculars

- 2024-2025 **Class representative**
University of Cambridge, UK

- Represented my cohort in academic meetings and communicated concerns and ideas from the class to the module leaders.
- Persuaded the department to implement changes to the structure of one of the courses by communicating feedback and opinions of the class and preparing a report that outlined these points concisely.

2019-2021

President & Local Public Health Officer

Palestinian Medical Students' Association- Nablus, Palestine (Member of IFMSA)

- Led the initiative on various **large-scale public health initiatives**, including a COVID-19 campaign reaching 260,000+ beneficiaries and coordinating medical relief days for underserved communities.
- Contributed to city-wide planning and execution of tobacco control and prevention campaign targeting illicit selling of tobacco for young children

Workshops attended

2025

Social Medicine Course (SMC)

Institute of Community and Public Health (ICPH)-Birzeit University and WHO, Online

- Attended a 50-hour course on the sociopolitical implications of the occupation and continuous violence on the health of Palestinians with Palestinian and international experts on the field.

Prizes and Awards
